Xentry Hard-wired PEG protection bypass

edit downgrade A: The key is to do exactly as you said. That the Xentry uninstalled correctly (and was working correctly) on the X51200GX was a risk. But after the DAS fix, the Xentry passwords and DAS passwords now functions normally. Thanks. The present invention relates to a novel electronic system. More particularly the invention relates to an electronic system which can be used as a shelter, a source of radiant heat or electricity, or for any other purpose. It is known in the art to provide shelters which are roofless, however these are either partially or completely open. It is also known to provide enclosed sun shelters such as that disclosed in Australian Patent No. 33429/94. It is further known to provide a sun protection system for private dwellings wherein a housing is fitted to an existing house, roofed and covered with opaque material. The housing includes a roof enclosed by a transparent front, rear and side which allows sunshine to enter the attic space. However the system is limited in range of sun protection. Finally it is known to provide a radiant heating apparatus in which a heat exchanger is positioned within a steel housing having at least one aperture at the top to allow sunlight to enter the housing. The housing also includes a cover with one or more louvers to allow the sunlight to enter the housing. However the apparatus is limited in range of protection from sun, and in terms of architectural integrity. d i n g o r d e r . - 1 2 1 , - 3 , - 2 P u t 4 , 3 2 , - 0 . 2 i n d e c r e a s i n g o r d e r . 3 2 , 4 , - 0 . 2 S o r t - 1 9 7 , - 4 , - 1 , - 2 i n i n c r e a
