Download Deadwood [S01 S02 S03] [720p BRRip X264-FLEX HDTV + DTS 5.1]The overarching goal of this project is to evaluate the feasibility and pilot properties of a multi-component intervention designed to prevent pre-diabetes (glucose[glu] to[glu]pro-insulin[ins] ratio[fasting glucose - insulin] >6.2 or HbA1c >5.7 %) and its progression to T2D. In this stage of the project, the specific aims are to 1) develop a theory-driven, theoretically-guided, semi-individual, group-tailored, integrated, home-based intervention to prevent pre-diabetes and T2D, 2) Develop design concepts for a randomized controlled trial to evaluate feasibility and pilot properties of the intervention, 3) Pilot test the intervention and the procedures in the project with a sample of 10-12 African American adults at moderate risk for pre-diabetes or T2D who are participants in a primary care clinic. In pursuit of the overarching goal, the project will use a multi-level approach by employing a theoretically grounded, multi-level approach with a focus on environmental and behavioral factors through which the core components of the intervention - individual, interpersonal, organizational, community, and policy factors - operate. We will work with the Principal Investigator's professional network and interactions with the fields of medicine, nursing, social work, community health, and education to develop the intervention. In a robust evaluation we will compare the effects of the intervention on the primary outcomes of the study in a randomized controlled pilot trial. The primary outcomes will be the change
