You will be in a forest, where animals that are dangerous to humans live and hunt everyday. But you're a cowboy! You are playing as a cowboy and you must hunt and kill the animals. You will only have 2 bullets but you will need to be quick. You can escape by shooting the animals with the gun. However, it is not like you can evade the animals forever, because the animals are very powerful. If you are a little bit late to escape by running, the animal will attack the owner of the farm. If you fail the attack, you will lose 1 life. Also, if you're hit by an animal, you will lose 1 life for every second, until you die. The longer you live, the more score you get. In addition, you will be rewarded with score by killing animals.

- 1) Single Mode In this mode, you can only get scores according to your number of game over. For example, you lose 2 lives, and you will be scored 1 point for that kill. When you lose another 2 lives, you will be scored 2 points for that kill. When you lose 2 lives, you will be scored 3 points for that kill. If you get 4 lives from the attack, you will be scored 4 points. And so on.
- 2) Competition Mode You can enter the ranking to compete against other people. So, you will compete with other people for who can have the highest score.
- 3) Hide and Seek Mode You are a single person who must hide in the forest. You only have 2 bullets, but the animal is really wild. You cannot be caught by the animal. The animal comes to find where you are and you have to hide from the animal. If you die, you will lose 1 life. If you cannot hide in time, the animal will attack the owner of the farm.
- 4) Various Obstacle When you get used to the forest, you can practice more with various animals that come in the forest. You will be in the mission to hide and seek the animal. If the animal is not found, you will lose 1 life. If you are killed by the animal, you will lose a part of your lives. When the animal is found, you will lose lives according to where the animal is found.
- 5) Upgrade When you win the battle, you will get the
