Okay, so once you logged-in, then click on the blue button, in the top left side of the screen (it looks like a button).

You should now be in the main menu, click on the box that says "Retirement Simulator" and wait while the game loads, once it is done loading (after about one minute) you will see the main menu screen.

If you don't already have a retirement account (or you don't know how to get one, it's not a hard thing to do) then you have to set-up a retirement account first. In order to get more money, you have to play the game on every day, so you have to spend time on the game every day. The longer you play, the more money you earn. But you must play to earn money. If you don't play for a day
