Join the game creators, Matt Christensen and Robin Arnott, on a surreal journey through time and space in the universe of Superliminal. Explore the 5 "colors" of the game's universe and interact with 4 distinct "worlds", as you travel through time and space, meeting other people and traveling through the solar system. About Superliminal: The core goal of Superliminal is to solve the mysteries of time and space, which are based on the idea of moving images, animation, and sound in ways that are accessible and intuitive for everybody. The game blends the experience of motion, orientation, exploration, and community. The players must travel across space and time, simultaneously, searching for clues and clues to unravel the mysteries of Superliminal.
