**What's new in Elden Ring:**

**AS PORTFOLIO: Duoduo**

**DUO DUODUO** Throughout time, our gaming culture craved novelty. A story, at its heart, is one, but as people grew older, we became more and more comfortable playing the same old things. With cutting-edge technology, Duoduo is pleased to present a new world and new content to the gaming world via innovative meaning of “synchronous” and “asynchronous” multiplayer.

The core gameplay of Duoduo is a grand role-playing game, a dramatic story where you travel to the Lands Between to collect special rewards and defeat other players. By characterizing your characters, you experience a thrilling adventure every time you log on!

Duoduo also hosts an exciting “Strategy Club” where you can compete in team battles all over the world, evolving real-world strategies to “win” in an online multiplayer environment. By interacting with other players and building friendships, you can experience a completely new social environment that is different from the current gaming.

While engaged in a synchronous battle, you can still play Duoduo games with other players who are all engaged in different asynchronous battles using asynchronous rules.

We are also proud to reveal that our new technology is capable of “Synchronization” and “Asynchronous”. Due to this innovation, there’s no matter the internet connection or platform, you can feel the presence of others everywhere with all other Duoduo users who play Duoduo in a “synchronous” environment.
