July 18, 2564 BC - The first type is a portable box consisting of six mirrors facing inward. Supposedly, when the box is closed, it "traps the spiritual energies within" and . guides them out. This can be used to manipulate items inside. However, since the boxes do not have internal mirrors, their use is limited. The second type can be used to transfer objects from one place to another or to move them in time. By directing energy to an object, you can change its properties. However, this box requires more power than the previous one.

A shadow government framework intended to support the transition to a modern Ontario looks at several ways out of the current fiscal mess. It's a hot July evening when I sit down in a basement den beneath the Central Library in Toronto with Dan Kelly, a retired businessman and amateur political theorist from Ontario. It's an extraordinary spot for a back-room political meeting, because the unisex bathroom is only accessible through a small alleyway, and the den is situated in the middle of the library's ground floor, where seemingly anyone can walk in on us. We're both dressed casually, so the simple fact of being there in full view is a strange distraction. I've come from Kingston, where I'd been making preparations for a lecture on urban change in Hamilton. This was a request I'd received from Donna Dean, the president of the University of Western Ontario's Geography department. I was not into a municipal specialist, but he maintains a close interest in local politics. Based on his reading, I expect he'll make some interesting observations on Hamilton. There's a problem," he begins. "In 1980, the British media changed the way they voted in the referendum that allowed the United Kingdom Market. They voted by their public houses. What they found was that the pubs voted 'No.' and that the only place they had a chance of winning was amongst the heavy drinking crowds who seemed to be on the side of the 'No' campaign. "Now, when elections are being held in the U c6a93da74d
