They would eventually disband in 1997 and No would go and found the White Noise project. Since then Razor 1911 has been reformed around Trondheim, with Nosferatu and Red Baron mostly inactive, and Sector9 reform a better active member. Sector9 was the unofficial leader of the group until 2009 and continues to be the leader after it. The first cracking kit was released in 1987 by Sector9, and that same year the group was renamed Razor 1911. The membership at that time was No (leader), Sector9, Strangelove and Tornado. They would release a couple of crack kits in 1988 and most recently in 1992. The group is mostly known for the cracking of Sims III, Sims IIIsky hack, and Hammer; however, they were the first to crack the release of Sims IIIsky in 1991. Razor 1911, in some of their early releases, used the Sector9 cracks to crack the core of Sims III, as all of Sector9 cracks were not being sold. The April 24, 2009 build of Razor 1911.08 added a ROM dumping program, but this tool was updated to a more sophisticated version, and a Razor 1911 crack was released on Oct. 5, 2010.
