
Logic Pro 9.1.8 Serial Number Crack _HOT_

Sep 15, 2013 - I just moved my Logic Pro 9.1.8 to a new Mac because my old PC crashed. They ask for a serial number, but I don't have one. I can't find it anywhere. Logic works for me. Please help me. Answer: Your Logic Pro must be associated with your Apple Developer account, which gives you access rights. You can get your Logic serial number by clicking the Apple icon in the top right corner of the app window and then selecting Account -> View Account. I can't load any of my Logic projects. I have several projects saved on my PC.
