## **GrandtheftAutoGTAViceCityv11repackMrDJbot**

the project runs on the turtlpack engine which extends the game engine with live-updating textures and with a very fast and optimized updater. it also includes a dynamic texture and a dynamic gps positioning engine. the original vice city got hacked in 2010 with the release of v1.5.3, and after cleaning it a bit i decided to release a version patched with the stuff fixed in v1.5 that added the main and bonus fixes. i named it grand theft auto: vice city v1.5 (gtav11v1.5mrdjbot). the v1.6.0 patch (and the v1.0.1 manual patch) came with the stuff i found on the vice city v1.6 ftp server. since the release of the ftp server and the change of the version, i found quite a few wackies who tried to hack it. the hackers that tried the standard vice city v1.5.3+1.5+1.1+1.6.0 hack aren't suitable for the work. this tool is to add the grand theft auto: vice city repack to

---

gtavicecityv11. for installing to the gta vice city v1.10 directory where the original game was installed: open up the tools folder with %appdata%\rockstar games\gtaiv.09 directory where the original game was installed: open up the tools folder with %appdata%\rockstar games\gtav.01 folder where the original game was installed: open up the tools folder with %appdata%\rockstar games\gtav. this method of installation will give the full game, not the trainer, but will be a working trainer. however, this will not be easy to install. in order to install a smaller trainer, you need to extract the.pack file directly in the /gtavicecity/v11/tools folder. this will be a trainer which is self-installing with the files it needs. note that due to the nature of the self-installing this trainer may not install correctly. but the main tools folder will still be added to your mod folder. this means that the same trainer can be used without

---

having to install again. the following tools folder: [%appdata%/rockstar games/gtav]\tools\grandtheftautogtavvicecityv11repackmrdjbot. to play the game: in the tools folder of gta vice city, press f5. this tool has been written by r.b.org and can be found on the gta.repack pack site at: grandtheftautogtavvicecityv11repackmrdjbot.zip type of files: zip, rar, rar with first file, p7zip. installation: extract. license: gpl disclaimer: this is not our project, it has just been repackaged for our use. we are not responsible for any damage done to your computer or game by using this mod. if you like this tool please let us know in comments at the pack page: grandtheftautogtavvicecityv11repackmrdjbot.zip q: java timezone issue in tomcat8.0 in my application time is set to india time as below final dateformat df = new SimpleDateFormat("yyyy-mm-dd't'hh:mm:ss.ssszz"); df.setTimezone(timezone.getTimezone("gmt +05:30")); but for getting current time in my application, i am using code as below
