The software can manage a list of mobile numbers or user accounts that users may use in their devices. Dekart Sim Manager can be used to add,delete and edit phonebook entries. The software enables users toimport and export SIM PINs using the SIM file format. Our servers are like your personal disk. You can store there your music, pictures, ringtones and games data, etc. The folders created by you, will be yours and your family. For example, if you want to keep your media files on your personal disk, you can use iTunes or Winamp. However, if you want to store your music on other computer, you may want to use third party software such as PSP Media Manager or Songbird. The reason why we suggest you to choose the last solution is that Dekart Sim Manager is included in some Mobile Phone data cards as smartcards (PUBLIC DRIVE) Creating, accessing and changing the PINs using Dekart Sim Manager is the most important. Even if you are not able to create/modify your PINs, you should use the Keypad because it helps you to enter your PINs manually Dekart Sim Manager is a simple application to create, edit, and backup phonebook entries using your PC and stop typing ininformation using the mobile phones keypad. Manage your PIN codes, transfer data from one SIM/USIM to another, backup and export/import all phonebook entries using any compatible smart card reader. Dekart Sim Manager is a versatile software designed to suit the needs of both individuals looking for a fast and efficient tool for managing their contacts, and GSM operators requiring special features such as the possibility to view PIN1 state, SIM serial number, technical data of the phonebook, its memory size and the number of free entries.
